We wish to thank Margo Hayes of Vitulus Stud and the LaBrie family of Kobblevale Stud for making a 10 day visit to Australia a most exciting and educational experience. At Kobblevale Stud, where we were staying, we found a family working together to enhance the quality of their cattle. They have some of the most beautiful calves on the ground we have seen.

Well, Phil LaBrie is a scientist and they are doing this scientifically. Gene Star, weighing monthly, conformation, and blood lines. How can you get any better?

Again we thank both families for being such great hosts.

***Sincerely, Bonanza LLC,
David & Donna Whitehead.***
